"And when you open the Book of Remembrances,  
what is written there proclaims itself – for every  
human hand leaves its mark."

-U'ntaneh Tokef, High Holy Day Liturgy

## God's Bookshelf

During the High Holidays we hear plenty about the Book of Life and we spend a great deal of time trying to get written into it. But where does God do primary research? In the prayer U'ntaneh Tokef, we read that, in preparing for the Day of Judgment, God opens up Sefer Zichronot, the Book of Remembrances "and what is written there proclaims itself." Let's find out what is written there so we can do our best to temper the severe decree.
