

Tot-Adult Programming Winter - Spring 2016

BJBE offers a range of high quality programming for young children and the adults who love them. All of our classes are taught by caring professionals, with an expertise in facilitating intergenerational interactions in a developmentally appropriate way.

NEW!

Grand Adventures

Toddlers 10-24 months old have the opportunity to explore and play with a special mature adult. Jewish holidays are highlighted with opportunities for lots of singing and finger play. Each class session includes a snack time – please make note of any allergies or food restrictions. Developmentally appropriate activities are designed to expose children to Jewish values while having fun! Taught by Marci Cohen, this class is geared toward grandparents and the tots they love although enrollment is open to all.

George's Gym

Tumbling, stretching, games, music, art and more to enhance and celebrate your child's current and future development. Activities are designed to meet each child at their developmental level. Based on an early childhood developmental model, we are able to enhance their natural reflexes and instincts by teaching new skills that feel like play! In addition, we provide parents with tools and activities to incorporate into playtime, enhancing development at home, outside of our classroom.
